

ACCESSORIES

- Available for both doors & windows.
- Provide additional safety & security.
- 10 year guarantee.

The Roto range of window hardware is complemented by a variety of accessories that can be fitted as optional extras to improve security and safety. These include restrictors for windows, window locks and anti-theft claws, as well as anti-jemmying devices to help protect against intrusion.

ACCESSORIES

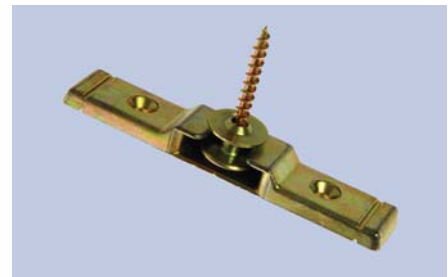

Restrictor for windows

Suitable for use on inward or outward-opening windows this device restricts the opening by up to 125 mm. It can be installed as either manually-releasable, or by the addition of a screw, fixed to prevent easy release.

Anti-jemmy device

This device provides effective security against the jemmying of a window via a mushroom headed cam which locates into a striker on the frame. It is quick and easy to install.

Tilt only lock

This is an ideal safety feature as it prevents the turning operation of a tilt and turn window.

Royal theft claw

The theft claw provides enhanced security down the hinge side of doors and windows. Once closed, it helps prevent the jemmying of hinges, usually the first point of attack for burglars. The Royal claw fits into a dedicated frame part made from high impact plastic. This keep also gives compression as well as security.

Please note that there are many other accessories within the range, contact the Roto offices for further details.
